

ADVANTAGES

- + Produce your own energy from an endless source, the sun
- + Reduce your energy bill
- + Protect the environment by producing energy without CO₂ emissions or other particles
- + Modular KIT expandable

COMPLETE KIT 360-390 Watts

- + All necessary components are included
- + Easy installation
- + Designed for domestic use
- + Option for attachment to roof, wall or ground
- + Expandable KITS of 360-390W

WHAT IS THE SOLAR ENERGY KIT

It is a device that allows you to produce electricity from solar energy.

HOW IT WORKS

The photovoltaic solar module captures solar energy, then a small inverter converts this energy into electricity.

This energy flows through the power cord and gets into the main circuit of your home, allowing the supply of equipment that are connected.

WHAT IS INCLUDED?

The SOLAR ENERGY KIT contains a photovoltaic system with all components needed to start immediately working:

- + 1 photovoltaic module
- + 1 micro inverter
- + 1 fixing structure
- + Cable and plugs for connection
- + Screws and accessories
- + 1 instruction manual for installation

**ALL YOU NEED TO DO IS PLUG IT AT HOME
AND YOU ARE ALREADY PRODUCING
YOUR OWN ENERGY**

PRODUCE YOUR OWN ENERGY
