WHO WE ARE

Founded in 2005, Voltalia is an international player in renewable energy generation and storage, acting both as Power Producer and Service Provider for its Clients.

With a historic purpose to *“Improve global environment, fostering local development”*, Voltalia has officially become a “Mission-Driven” company in 2021 to enhance its environmental and social commitments.

YOUR PV PARTNER

We are more than a sustainable solutions partner/provider, we also aim to contribute to expand your business, building a strong partnership that will benefit both parties.

- Our team is devoted in finding the best solutions and products to fulfill your PV requirements;
- Our more than 15 years PV expertise and know how guarantee the quality and reliability of the products and solutions we distribute;
- We are flexible, and we supply customized solutions.

We focus not only on the product, but also on the service:

- Personalized Commercial Attention / Local dedicated Sales Force;
- Technical support / Training workshops;
- Logistics and Warehousing: Flexible Logistics provided by large and reliable International and local logistics network;
- After Sales Service;
- Team with local presence;
- We speak your language.

We are ready for the future. Flexibility, excellence in service and continuous technological innovation are our guidelines, conceived to provide installers worldwide with the best offer for all kinds of PV installations.

“When you choose Voltalia as Distributor, you choose a reliable partner that will always be available for you during the whole process to back up the success of your projects”

The distribution business line of Voltalia is specialized in the distribution of Solar Equipment: modules, inverters, mounting systems, batteries, self-consumption kits and all type of PV accessories and components.

OUR COMMITMENT

Voltalia Distribution business line commitment is much more than towards quality and service; we are also highly involved in the environmental protection and in the research and development of new photovoltaic solutions to build together with our clients and partners a safer and greener future.

EQUIPMENT AND SOLUTIONS

Having a specialized scope in the distribution of PV solutions, makes our products portfolio highly adaptable to fulfill each client needs.

Focus on high quality equipment with outstanding warranty, high efficiency and life performance. We carefully select our partners, according to a rigorous quality standard.

MODULES

- Complete portfolio range of PV modules solutions, starting from Mono Perc Standard up to the latest technology available on the market.

INVERTERS

- Industrial/Commercial and residential scale solutions provided by top selected brands;
- Future ready storage solutions.

MOUNTING SYSTEM

- Mounting system adapted to nearly any applications (rooftop, ground and carport solutions);
- Customized solution according to the clients' requests.

COMPONENTS

- Cables and connectors;
- AC/DC electrical boards;
- Monitorization systems.

SOLAR ENERGY KIT

- Modular kits (master + slave): DIY concept;
- Kits with grid connection.
